

Saikiran Abbineni

Java Developer

+91 9550138095 | abbinenisaikiran8@gmail.com | Hyderabad,India | [linkedin](#) | [github](#)

SKILLS

Backend Development: Java, Core Java, JDBC, OOP, Collections Framework, Exception Handling
Database Technologies: Oracle SQL, MySQL, SQLite, CRUD Operations, Joins, Subqueries
Web Technologies: HTML, CSS, Bootstrap, JavaScript
Tools & Platforms: Git, GitHub, VS Code, ServiceNow

EXPERIENCE

Java Backend Developer Intern <i>XTGlobal</i>	May 2026 – Jul 2026 Hyderabad, India
- Undergoing industry-oriented training in Core Java, JDBC, Oracle SQL, and backend application development. - Learning object-oriented programming concepts including inheritance, polymorphism, abstraction, and exception handling. - Working with SQL queries, joins, subqueries, and CRUD operations for database-driven applications. - Gaining hands-on experience with Java Collections Framework and application logic development. - Developing frontend interfaces using HTML, CSS, Bootstrap, and JavaScript. - Using Git and GitHub for version control and collaborative development practices.	
Freelance Web Developer <i>Mr Kitchen</i>	May 2025 – Jun 2025 Hyderabad, India
- Developed and maintained a responsive restaurant website for Mr Kitchen using HTML, CSS, Bootstrap, and JavaScript. - Designed digital menu pages, contact forms, and customer inquiry features to improve online customer engagement. - Implemented responsive UI components to ensure compatibility across mobile and desktop devices. - Managed website updates, content modifications, and basic performance optimizations. - Collaborated with restaurant management to improve online visibility and customer experience.	
AI-ML Virtual Internship <i>Google (via EduSkills & AICTE)</i>	Jul 2024 – Sep 2024
- Completed a 10-week virtual internship focused on Artificial Intelligence and Machine Learning concepts. - Gained exposure to machine learning workflows, data preprocessing, and basic AI applications. - Explored industry-oriented learning modules and practical problem-solving approaches in AI-ML. - Developed understanding of emerging technologies and collaborative learning practices.	

EDUCATION

Gandhi Institute of Technology and Management <i>Bachelor of Technology in Computer Science Engineering</i> CGPA: 8.47	2023 – 2027
Sri Chaitanya Junior Kalasala <i>Intermediate (MPC) – Telangana State Board of Intermediate Education</i> Percentage: 90%	2021 – 2023

PROJECTS

Inventory & Order Management System – HTML, CSS, JavaScript, SQL, SQLite.	May 2025 – Jun 2025
- Developed a database-driven inventory management system with stock monitoring and order tracking functionalities. - Implemented low-stock alerts, product management, and expiry tracking features. - Designed responsive dashboard interfaces for efficient inventory monitoring and reporting. - Used SQL queries and CRUD operations for structured data storage and retrieval.	
Employee Leave Management System Java, JDBC, Oracle SQL, HTML, CSS	Feb 2025 - Apr 2025
- Developed a database-driven employee leave management system to automate leave requests and approval workflows. - Implemented functionalities for leave application, approval/rejection processing, and leave balance tracking using Core Java and JDBC. - Designed relational database schemas in Oracle SQL and utilized joins, subqueries, and CRUD operations for efficient data handling. - Built responsive frontend interfaces using HTML and CSS for seamless employee and administrator interaction. - Improved workflow efficiency by reducing manual leave management and streamlining employee record maintenance.	

CERTIFICATIONS

- Java Programming – Apna College
- Python Programming – GUVI
- Foundations of Cybersecurity – Google

ACTIVITIES

- Participated in TechXelerate Hackathon at BITS Goa, focusing on problem-solving and team collaboration.
- Attended Google Developer Fest, gaining exposure to industry technologies and development practices.
- Volunteered in college technical and cultural events, supporting coordination and event management activities.
